

ABSTRACT OF THE DISCLOSURE

5 Buccal aerosol sprays or capsule using polar and non-polar solvent have
now been developed which provide biologically active compounds for rapid
absorption through the oral mucosa, resulting in fast onset of effect. The buccal
polar compositions of the invention comprises formulation I: polar solvent 37-
98.58%, active compound 0.005-55%, optionally containing flavoring agent
0.1-10%.
